MUHAMMAD RAIHAN HATIM

Front-End Developer

Jakarta, Indonesia • +62812-9303-4489 • raihanhatim.01@gmail.com • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Experienced Front-End Developer skilled in building responsive and user-friendly web applications using modern technologies. Proficient in HTML, CSS, JavaScript, TypeScript, React, and Next.js, with a strong understanding of UI/UX principles and web performance optimization. Holds a technical background in Informatics Engineering with solid knowledge of Software Engineering.

WORK EXPERIENCE

Enigma Camp — Jakarta

Front-End Developer (Trainee) — *Apr 2024 – Oct 2024*

- Built dynamic and responsive user interfaces using React.js, Next.js, and Tailwind CSS across various web application projects Unit testing with Jest
- Designed scalable state management solutions using Redux, reducing data flow complexity and improving application performance
- Developed reusable custom Hooks and Higher-Order Components (HOC) to accelerate feature development
- Consistently collaborated in Agile sprints, delivering features on time through effective team communication and active code review participation

PT Presentologics — Bandung

Front-End Web & Machine Learning Developer (Internship) — *Aug 2022 – Dec 2022*

- Built and trained supervised Machine Learning models using Keras (TensorFlow), then integrated the output into a front-end application via REST API
- Deployed ML models as REST APIs and developed interactive front-end interfaces to visualize predictions in real-time
- Implemented API error handling and secure authentication flows to ensure reliable data communication between services

Front-End Web & Back End Developer (SIB) — *Feb 2022 – Jul 2022*

- Completed the Front-End & Back-End Web Development learning track in the national Kampus Merdeka Certified Independent Study program — one of 400 selected students from 135 universities across Indonesia
- Developed various case study projects covering full API lifecycle management: fetching, handling, and displaying data from external REST APIs
- Strengthened expertise in state management, component architecture, and API integration patterns through project-based learning

Universitas Komputer Indonesia — Bandung

Google Developer Student Club (Member) — *Sep 2021 – Sep 2022*

- Actively participated in study jams covering React, Firebase, and RESTful API best practices, applying learnings to community-based development projects
- Collaborated with peers on shared projects, gaining experience in team-based workflows, version control (Git/GitHub), and modern web development standards.

TECHNICAL SKILLS

Technologies HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js

Tools & Workflow	Git, GitHub, NPM, REST API, State Management, AI Agents
UI Framework	Tailwind CSS, ShadcnUI, NextUI, Bootstrap
Soft Skills	Problem Solving, Critical Thinking, Communication, Team Collaboration

EDUCATION

Vocational High School Tanjung Priok 1 — Jakarta

Diploma In Informatics Engineering — *2016 – 2019*

GPA: 8.1 / 10.00 (Graduated)

Universitas Komputer Indonesia — Bandung

Informatics Engineering – (Only Completed 7 Semesters) — *2019 – 2023*

Relevant Coursework: Algorithms, Data Structures, Web Programming, Software Engineering

GPA: 3.13 / 4.00 (Did Not Graduate)

CERTIFICATIONS

- **Kampus Merdeka** – Front-End & Back-End Developer (Program Nasional)
- **Dicoding Academy** – Front-End Web Developer Expert
- **Dicoding Academy** – Git & GitHub
- **Cisco CCNA** – Introduction to Networks
